

**Looking to broaden your customer base?
Do you desire quality employees?
Looking for career-minded students?**

Participating in this year's Western Region Leadership Conference DECA exhibits is a great way to achieve all of the above! The participants aren't just high school students. These are student leaders who, along with their advisors, make final purchasing decisions not only for their school stores but also other fundraising events. These career oriented young people are also looking for career opportunities after high school and college.

Today's teenagers are a market you can't ignore:

They have high discretionary income. Teens earn more than \$130 billion dollars each year, spending almost all of it on discretionary items.

They spend family money. Teens now assume a greater responsibility for household shopping than they did in the past, spending more than \$43 billion of parents' income every year.

They influence family spending. Teens influence as much as \$200-300 billion in annual household spending.

The teen population is growing: There are more than 32 million teenagers in the United States, and the teen population is growing at twice the rate of the overall U.S. population. It is expected to reach as high as 44 million in 2020.

Today's teens will be tomorrow's top consumers. Forward-looking companies should actively market adult brands to teens in order to cement current and future brand loyalty.

An exceptional opportunity!

Whether you choose to exhibit with us or advertise in our conference program, you're taking advantage of an exceptional opportunity. The Western Region Leadership Conference (WRLC) is the premier leadership conference for marketing students from Washington, Oregon, California, Arizona, Nevada, New Mexico, Utah, Colorado, Wyoming and Montana. Every Fall the WRLC brings together more than a 1000 of the west's best marketing students for this exciting event.

What is DECA?

Founded in 1946, DECA is a nonpartisan, nonsectarian 501(c)(3) association of marketing students—185,000 high school and college students and the teachers, school administrators and local businesspeople who support them. The young men and women of DECA are smart, dedicated individuals already actively involved in preparing for successful careers in marketing, management and entrepreneurship. Nevada DECA is a member association of National DECA with over 1,400 members.

They are experienced in workplace skills and are proven leaders within their peer groups and their neighborhood communities. The majority—generally juniors and seniors in high school—hold jobs, and a surprising percentage own their own businesses. Eighty-six percent of DECA members will pursue postsecondary education.

DECA is not extracurricular; it is an integral part of the classroom instructional program. DECA provides teachers and members with educational and leadership development activities to merge with the classroom instructional program, teaching the skills that a successful career in business requires.

Working hand-in-hand with the educational and business communities, DECA's goal is for its members to develop a "career success kit" to carry into their professional and personal lives after graduation, including

- Occupational skills needed for careers in marketing, management and entrepreneurship
- Leadership skills
- An understanding and appreciation of civic responsibility
- Ethical behavior in personal and business relationships
- An understanding of the role of our free enterprise system in the global economy

To accomplish this, DECA uses on-the-job experience, local chapter projects and a program of competency-based competitive events in specific marketing occupational areas. These events emphasize academic and vocational excellence as building blocks for successful marketing and management careers and demonstrate the direct relationship between marketing education and the real needs of business and industry. Each year, more than 112,000 members participate in competitions on the local, state/provincial and international levels.
